WeaveMetric Studio · calibration chessboard · 26 × 26 squares of 5 mm

50 mm

Print at 100 % / Actual size. Do NOT use Fit to page or Shrink to fit.

Check: the bar must measure exactly 100 mm. If it doesn't, fix the printer scaling and print again.

Measure the printed board edge to edge with a steel ruler and enter the measured width and height in ScaleStudio › Settings › Chessboard (26 × 26 squares).

Use matte paper (laser printer if possible), glue it flat on a rigid board, keep it clean and unbent.

Board: 26 × 26 squares, 5.000 mm each, 130.000 mm edge to edge. Page: A4 portrait.
